

AKINWUMI KEHINDE .D

Technology, Management & Business Consultant

OBJECTIVE

A dedicated and multi-skilled Mechatronics Engineer seeking to contribute to innovative and impactful projects. With a strong foundation in mechanical, electrical, and electronic systems, combined with hands-on experience in fabrication, electrical work, and creative media production, I bring a unique blend of technical and creative abilities. I aim to grow within a dynamic organization where I can apply my knowledge, leadership, and practical experience to solve real-world problems and support team success.
